Benefits of private instruction

One of the major appeals of private instruction is that it is tailor made for you. Depending on your needs, travel, business, work place, school help etc., we can have our instructors focus on what you want to learn. This allows you to use both your time and money more efficiently. In these specialized classes, your instructor can teach you anything from specific vocabulary sets and key phrases that you need to know, to teaching you in an intensive immersion style.

We sell private instruction in eight hour blocks. As a student, you will also enjoy the benefit of being able to make your own schedule with those eight hours. If you can't wait for a group class to start, you can sign up for private instruction and get started right away! In addition, if you want to do one lesson a week for one hour a week, or several lessons a week, we can set up a schedule that works for your busy schedule and your language goals.

Also financially, our re-scheduling and cancellation policy helps ensure that you get all time that you paid for. As long as you give us 24 hours notice before needing to re-schedule or cancel your class, you keep all of the hours that you purchased.

Rates for private instruction

Private instruction is sold in eight-hour blocks for \$400. If you are planning on taking classes with us long term, then purchasing our **Passport Program** is a great way for you to save money. It costs \$75 up front and acts like a super coupon, discounting all of your private instruction 15 percent. Our Passport Program lasts for 6 months and it is only \$40 to renew after that. When you buy one, the price drops **from \$400 down to \$340** for a block of eight hours. The Passport pays for itself after the purchase of the 2nd block!

If you are interested in putting together a semi-private class for two or more people, or a family program please contact us. We will provide you with our rates for our other specialty programs.
